## Comments

Not the biggest sample size. Only data for Byers is from this summer, as he spent the past spring playing high school ball. Pitched two shutout innings against us earlier this season to earn a save. Best pitch has been a changeup that he loves to throw outside to right-handers, and has gotten a high amount of swings and misses. Curveball has large sweeping break and works well off of the straight fastball. ERA doesn't tell the full story, as Byers has limited baserunners and struck out batters at a high rate this summer.
