Comments

Loa will be making his third start against the Battle Jacks. First time went 4 innings allowing only 1 hit, but was hit a bit more for 2 runs in 5 innings on July 8. Mostly throws a hittable 86 mph fastball, which has a BAA of .328 (on Synergy) this spring and summer. Best pitch is a curveball with massive break, that he has used very effectively against us in the past, especially our right handed hitters (57% whiff rate this year). Does a great job of locating the pitch so as to not hang it. Throws the changeup very rarely and only to righties, but keeps it low and below the zone, 58% taken for balls. Has only allowed one hit off an offspeed pitch this spring/summer (Hanging curve Home Run on 4/23 at Little Rock (Team was up 30-0)), keeping hitters at a BAA of .067 (1-for-15). While yesterday's starter had size and power, the smaller Loa is a crafty lefty who knows how to mix in and place his offspeed pitches.
